Date, 15/02/2019

Subject: The EC Regulation 1907/2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals ("REACH Regulation")

Reference: All articles we supply to our Customers.

Dear Customer,

Further to your enquiry in respect of the articles that we supply to you we would like to inform you that we have been conducting a communication and due diligence exercise within our supply chain to ensure that we meet our obligations under REACH.
We can confirm that, to date, all substances contained within our products have been pre-registered either by our supplier, or by their upstream suppliers. We do not foresee any disruption in the supply of our products as a direct result of REACH, but we will inform you if the situation changes.

We are closely monitoring the SVHC candidate list and are aware that the ECHA Member State committee voted to add 6 new substances on the January 15th 2019, in total 197 substances on updated SVHC Candidate List:

http://echa.europa.eu/web/guest/candidate-list-table

As an ongoing due diligence exercise we continually undertake a detailed review of the material content across our full product range. At present we can confirm that none of the chemicals on this list are present in our products. We are however also aware that, as ECHA add any new substance to the SVHC list in the future, we have a continuing obligation to keep ourselves informed of the addition of substances, as well as communicate any impact to our product as necessary in a timely manner that is compliant to the REACH downstream user communication requirement.

Kind Regards

Signature (Mr. Flavio Pavan – Legal Representative – C.E.O.)
